

# Strategies for combating MRSA in Norway

Petter Elstrøm

Department of Infectious Disease Epidemiology

Norwegian Institute of Public Health

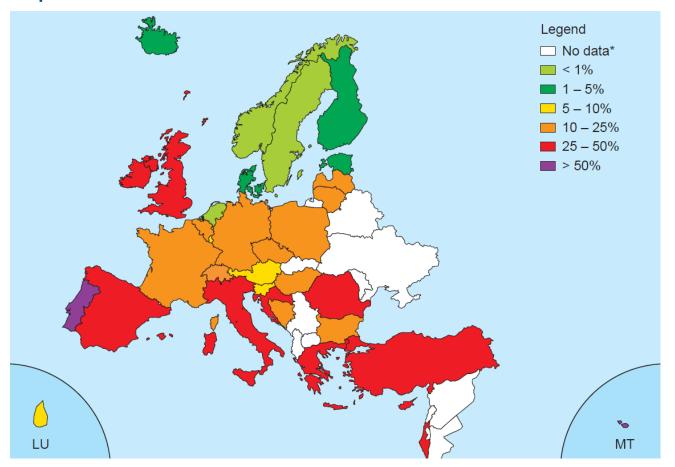

#### Content

- The epidemiology of MRSA and antibiotic use in Norway
- A historical view on the development of antibiotics, the evolution of MRSA and infection control
- Norwegian strategies regarding prevention and control of MRSA infections
- Evidence and transferability

## MRSA in Europe

The proportion of invasive S. aureus isolates resistant to oxacillin

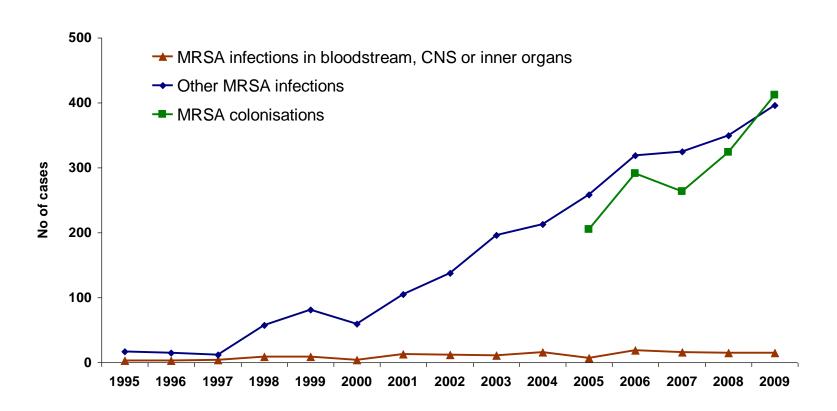

The European Antimicrobial Resistance Surveillance System. EARSS Annual Report 2008

#### MRSA in Norway

#### Reported cases of MRSA infections and colonisations

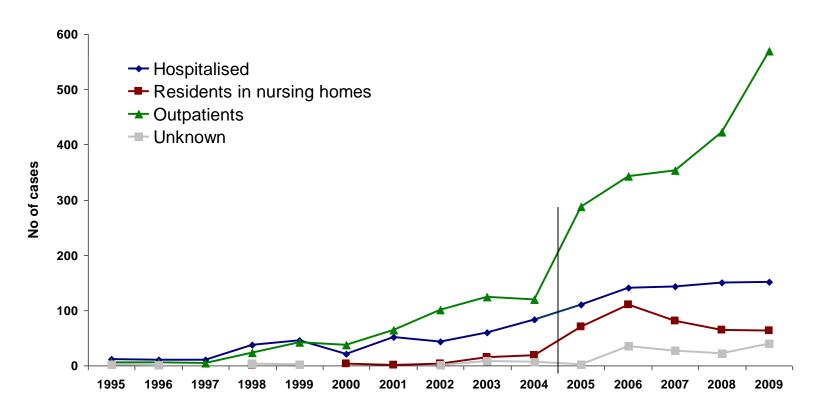

The Norwegian Surveillance System of Communicable diseases (MSIS)

## MRSA in Norway

#### Reported cases of MRSA infections and colonisations

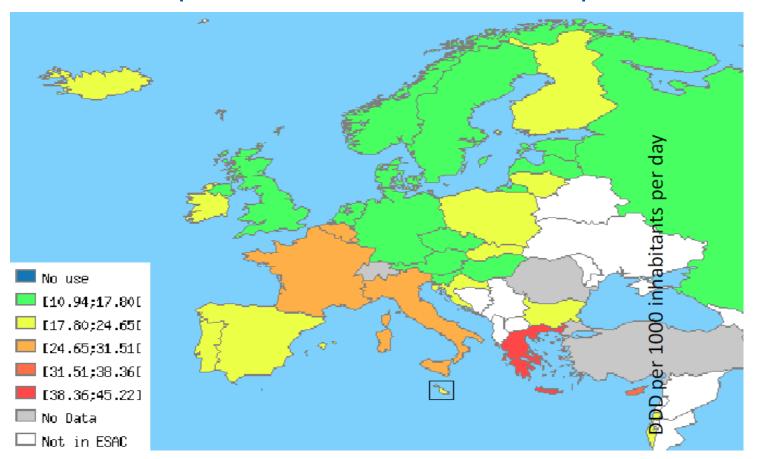

The Norwegian Surveillance System of Communicable diseases (MSIS)

## Consumption of antibiotics

Total outpatient antibiotic use in Europe, 2008

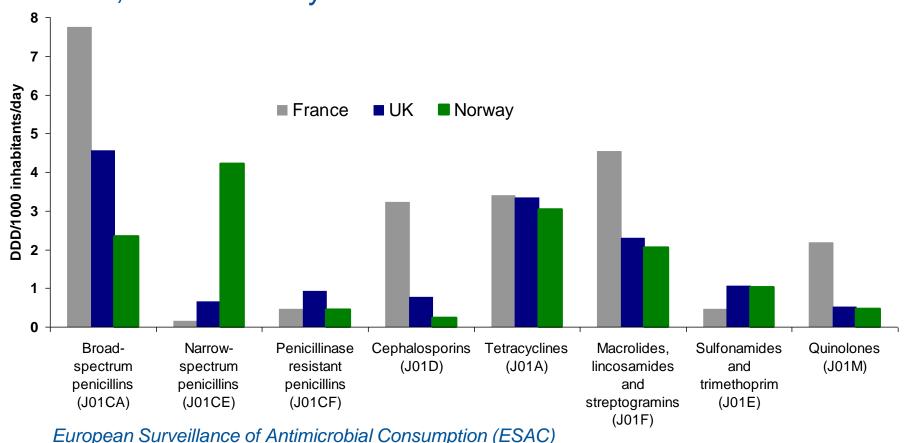

European Surveillance of Antimicrobial Consumption (ESAC). Poster ECCMID 2010

#### Consumption of antibiotics

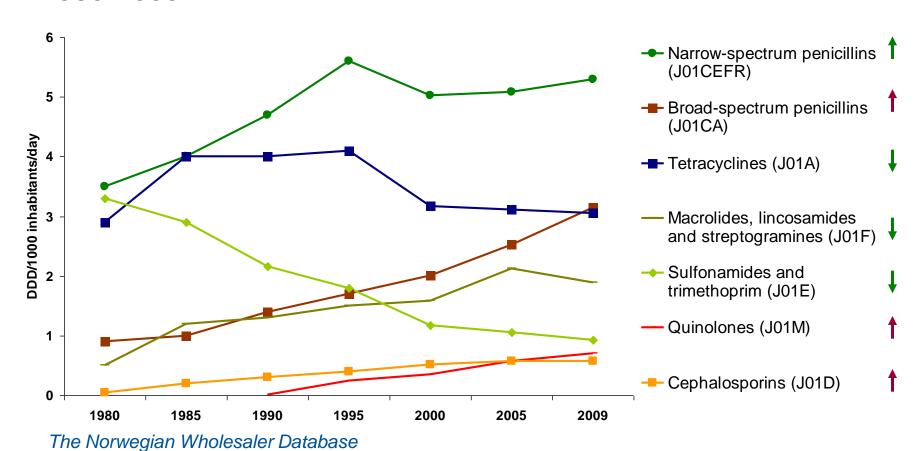

Outpatient antibiotic use in France, UK and Norway in 2005, distributed by antibiotic classes

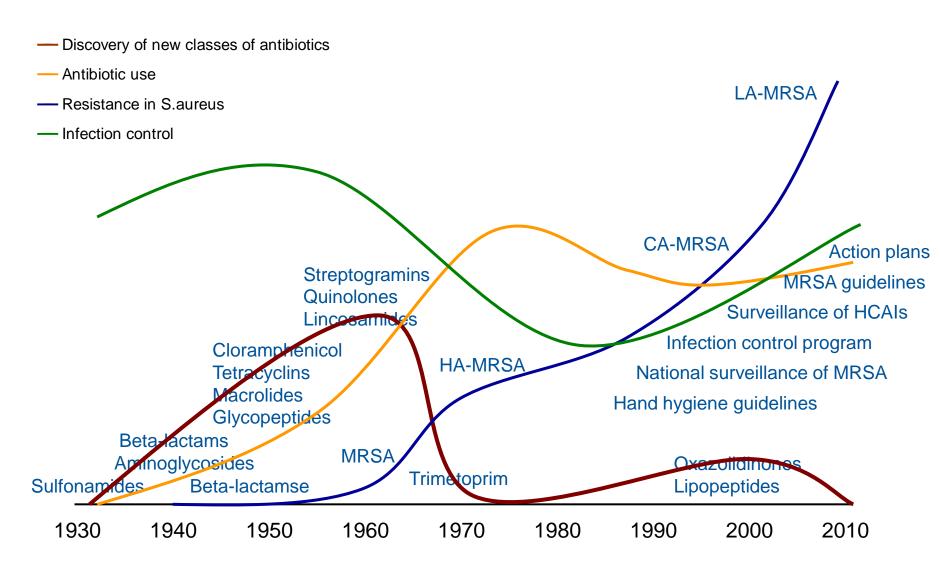

#### Consumption of antibiotics

Total sales of antibiotics in Norway for systemic use in humans, 1980-2009

## The history of resistance in S. aureus

## MRSA-guidelines

Control measures in health care

12 month follow up

**Decolonisation** 

Isolation / work restriction

Targeted screening

Standard precautions

## MRSA-guidelines

#### Communication and implementation

430 municipalities

• Chief med. off. =

54 hospitals

NIPH • Infection cont. pers.

Health care pers.

GPs

Health care inst.

#### Prevention and control of MRSA

Evidence and transferability

12 month follow up

**Decolonisation** 

Isolation / work restriction

Targeted screening

Surveillance / standard precautions / prudent antibiotic use

## Thank you for your attention!
