

Edwina Meets The Trustees of MRSA Action UK

Edwina Currie, Moya Stevenson and Maria Cann 13th June 2007

Representatives of MRSA Action UK welcomed our Patron Edwina Currie to a reception at the Renaissance Hotel, South Normanton yesterday.

Derek Butler, Chairman said "We are all looking forward to working together and forging links with all the agencies that are working collaboratively for patient care and safety. Edwina's experience and knowledge will complement the working relationships that we have already formed with the bodies responsible for ensuring compliance with the Hygiene Code."

Edwina took the opportunity to meet with us after attending the Royal College of Nursing Conference on Infection Control in Manchester. It was an interesting event and Edwina cited examples of good practice where some hospital trusts were beginning to see some reduction in the numbers of infections. We will be following this up and will be asking the Trusts if they wish to contribute to our Good Practice page.
